

A BUILDER'S GUIDE TO CHOOSING THE RIGHT WOOD PANELS

You know you're only as good as the products you use and your reputation means everything to your business. Don't risk it by using sub-standard products.

Cheap imports from Eastern Europe, China and South America might seem appealing but do they carry all the necessary standards and quality marks? Do they comply with UK building specifications? Is it worth risking your business with untested products that have travelled thousands of miles round the world?

DON'T RISK YOUR REPUTATION WITH CHEAP IMPORTS!

Our range of engineered wood panels are all proudly made in the UK, supporting the UK economy with quality assured products that carry all the relevant accreditations and safety marks.

ONLY WORK WITH THE BEST!

10

REASONS

to use SterlingOSB Zero, CaberFloor and CaberMDF

1

All our engineered wood panels meet rigorous standards, ensuring quality and compliance and are tested to meet UK specifications

*Product dependant

2

Our engineered wood panels are all proudly made in the UK, supporting the UK economy

3

All our UK engineered products are FSC® certified (FSC®C012533)

4

All our products are net carbon negative - this means they lock up more carbon than we emit making them, helping UK construction to comply with net zero targets

5

Our structural SterlingOSB Zero can be used in dry or humid conditions and contains no added formaldehyde making it safer to use

6

SterlingOSB Zero is loved for both its load-bearing credentials and its aesthetically pleasing visual appearance

7

CaberFloor flooring is the most popular P5 flooring range in the UK and is available with a choice of plain or protected finishes (peelable or permanent)

8

Our flooring can help keep you building, even when the roof's off - CaberDek and CaberShieldPlus are both BBA approved for 42 / 60 days weather exposure when used with CaberFix*

9

CaberMDF is the professional's range of MDF with different grades designed for varying levels of finishing and surface profiles

10

All our products are available nationally via builders merchants and distributors and are backed up with our excellent technical and product support

Visit your local builder's merchants to purchase or visit our website for more details uk.WestFraser.com

*When installed according to manufacturer's instructions
