

CaberFix® Adhesives

CaberFix® Adhesives

A range of adhesives specifically developed for use with CaberFloor flooring.

CaberFix® D4

A one-bottle adhesive and sealing solution that provides BBA approval* on CaberDek.

- Bonds T&G joints, flooring to joists, and seals exposed perimeter and edges
- Full BBA approval for up to 42 days exposure* when installed according to manufacturer's instructions
- Solvent-free, one-component polyurethane adhesive
- Foaming adhesive can be seen in the joints making sure a seal is made
- Easy to use, easy to hold 1kg bottle with easy flow nozzle
- Meets BS EN 204

*When installed according to manufacturer's instructions.

Important information about CaberFix D4

All professionals and industrial users of CaberFix D4 must complete training before using products containing more than 0.1% of monomeric diisocyanates - for details and training visit <https://uk.westfraser.com/safe-handling-training-for-pu-adhesives/>

CaberFix® Joint&Joist

A fast-setting, strong hybrid polymer adhesive for waterproof bonds in T&G joints.

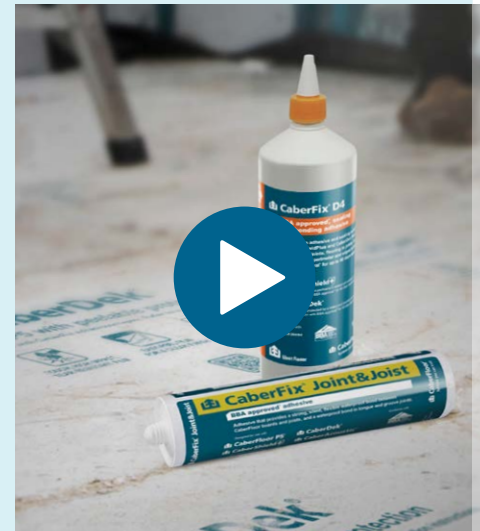

- Provides a strong, silent bonding layer between floor and joists
- Creates a waterproof bond in T&G joints
- Bonds in damp conditions to a variety of materials
- Fast-setting and easy to use
- Strong and flexible bond with good gap-filling properties
