10 REASONS TO CHOOSE CaberShield® ECO

1

Its weatherproof top coat allows you to keep building, even when the roof's off!

2

60 DAYS

It is BBA certified for 60 days weather exposure*

*When installed according to manufacturer's instructions. See website for details.

3

It provides a slip-resistant, safe working platform for trades

4

It's 100% recyclable

5

The solvent-free, waterproof top coating is UV cured, making it a greener choice versus traditional permanently protected flooring

6

The tough top surface can withstand high site traffic

7

It can help reduce Scope 3 emissions vs traditional protected flooring

8

The boards are proudly made in the UK

9

It's available from all good stockists across the UK

10

IT'S NET CARBON NEGATIVE

West Fraser

 SterlingOSB® Zero
Strength you can build on

 CaberFloor®
Systems you can trust

 CaberMDF®
The professional's range

HOW EASY IS IT TO INSTALL?

CaberShield Eco is simple to install using CaberFix D4 adhesive. Our step-by-step video guide shows you how to lay the boards, ensuring the floor is weather tight

WATCH OUR INSTALLATION VIDEO ON YOU TUBE

WHAT'S THE CO₂ SAVING VS TRADITIONAL PERMANENTLY COATED BOARDS?

CaberShield Eco saves 32kg CO₂e per pack, or the equivalent of boiling the kettle 457 times, versus a traditional permanently protected floor board like CaberShieldPlus. CaberShield Eco, like all West Fraser's UK-made sheet products, is proudly net carbon negative

WHAT'S THE SHEET SIZE?

CaberShield Eco is available in

**2400 x 600mm x 22m TG4 sheets,
82 sheets per pack**

WHERE CAN I BUY CABERSHIELD ECO?

It's available from stockists across the UK
