

# VACANCY

## MECHANICAL FITTER - SHIFT

West Fraser is a diversified wood products company with more than 60 facilities worldwide. We specialise in engineered wood products from responsibly sourced and sustainably managed resources. We are proud to be a certified net carbon negative company, locking up more carbon in our products than we emit by making them, helping the UK construction sector comply with net zero targets and beyond.

An opportunity has become available for a Shift Mechanical Fitter at our Inverness facility.

This position will report the Mechanical Supervisor and Shift Manager. The successful candidate will be responsible for the following:

- Repair of mechanical breakdowns throughout the plant
- Carry out preventative maintenance on mechanical equipment as required
- Identify and report any signs of equipment failure
- Ensure all documentation is kept up to date
- Install and commission equipment and services as requested
- Adopt and maintain good engineering and housekeeping procedures in all work areas
- Work carried out in accordance with permit to work code of practice
- Assist with other engineering work when and where required as directed by Mechanical supervisor

### **Essential Requirements**

- Minimum City & Guilds/ONC level in a mechanical discipline
- Full 4-year apprenticeship completed
- Industrial maintenance experience preferred
- A strong health and safety awareness and the ability to work unsupervised

Applications/CV's should be sent to [maureen.burnett@westfraser.com](mailto:maureen.burnett@westfraser.com)

Closing date: 20<sup>th</sup> April 2026
